

An Entire MBA

In Four Weeks

A Business Series By
FourWeekMBA

This book is dedicated to the FourWeekMBA community, which has helped me gain a Ph.D. in the real business world, without going back to Academia. In the process, I have become a better business person and helped thousands of people to do the same. In the future, I hope this project can reach even more people, in as many countries as possible!

Blockchain-based business models	81
Bundler model	82
Cash conversion cycle or cash machine model	82
Discount business model focusing on high quality	83
Distribution based business model	83
Direct-to-consumers business model	84
Direct sales business model	85
E-commerce marketplace business model	86
Educational niche business model	87
Family-owned integrated business model	88
Feeding model	89
Freemium model (freemium as a growth tool)	90
Freeterprise model	92
Gatekeeper model	94
Heavy-franchised business model	94
Humanist enterprise business model	95
Enterprise business model built on complex sales	95
Lock-in business model	96
Instant news business model	96
Management consulting business model	97
Market-maker model	97
Multi-brand business model	98
Multi-business model	99
Multi-sided platform business model	99
Multimodal business model	100

Multi-product (Octopus) business model	101
On-demand subscription-based business model	102
One-for-one business model	102
Peer-to-peer business model	103
Platform-agnostic model	104
Privacy as an innovative business model	105
Razor and blade revenue model	106
Self-serving model	106
Space-as-a-service model	107
Subscription-based business model	107
Three-sided marketplace model	108
User-generated content business model	109
User-generated AI-amplified model	110
Unbundler model	110
Vertically-integrated business model	111
Key takeaways	111
Week Three: Master The Customers	112
Radio and Mass-market	113
Television and mass market	113
The internet, Google, and its AdWords	114
Social networks, Facebook, and its advertising network	116
If you want to know where the advertising money is...	133
Everything you need to know about market segmentation	117
What is market segmentation?	118
What are the bases of market segmentation?	118
Why, when, and how to create a market segment	119
Requirements for market segmentation	120
 Measurable and identifiable	120
 Accessible	120
 Different	120
 Substantial	120
 Durable	120
Types of market segmentation	120
 What is demographic segmentation?	121
 What is geographic segmentation?	121
 What is behavioral segmentation?	122
 What is psychographic segmentation?	122
The four-level of market segmentation	123
 Mass marketing and the shotgun approach	123
 Segmented markets	124
 Niche marketing and micromarketing	124
 One-to-one marketing	124
The most powerful online tools for the marketer	125

Google Analytics: from behavioral to psychographics advertising	126
Retargeting and the art of repeating the message	127
Google's in-market audiences	128
Facebook audience insights	129
Key takeaway	131
Sales vs. Marketing	159
Distribution can be a branding hack	133
Some practical suggestions for your sales processes	133
How much to spend on Marketing vs. Sales? It's all about the product and the target customer	134
Week Four: Growth And Distribution	159
Why a distribution channel strategy matters	135
Types of distribution channels	135
Distribution channel vs. supply chain	136
Supply chain vs. demand chain	136
Internal vs. external	137
Process-centric vs. customer-centric	137
Why you need to understand the demand chain	137
B2B, B2C, and distribution channels	138
Traditional distribution channels vs. digital distribution channels	138
Distribution management: marketing or sales?	139
Pricing: What Model Will Work For You?	140
Pricing strategy and revenue modeling	140
AppSumoed: transforming subscriptions in lifetime deals	141
Auction: the winner takes it all	141
Bundled: more for less	142
Consumption-based: pay what you consume	142
Couponized: discounted as default	143
Fixed-price: the safe price	143
Pay-as-you-go: charge it up and go	143
Pay as you want: customer-made pricing	143
Platformed: get a cut on one or both sides	143
Psychological pricing: change the product's perception	144
SaaSified: transform a product into a service	145
Subsidized: let the rich pay for the poor	146
Uberized: dynamic pricing	146
Unbundled: let them get what they want	147
Business Development	147
Business Development vs. sales	148
The successful business developer thinks like a marketer but acts like a salesman	148
Business development is about nurturing the right relationships with partners that can become distribution channels	148
Business development guides marketing automation	149

Business development scales up businesses	149
Business development is about a growth mindset	149
Business development requires a high level of understanding of a potential partner	149
What activities does business development imply?	149
The sales pipeline is a basic tool for a business developer	150
What actions can the business developer perform to improve the sales pipeline?	151
What's a secret weapon for the business developer? LinkedIn	152
A crash course in sales canvassing	152
Why can sales canvassing matter?	153
Understanding the strength and unicity of the product/service	153
Focus on the problem and payoff	153
Set a target customer	153
Have a script but leave it flexible	154
Rejection is part of the process	154
Focus on a single channel but leverage on several media	154
Examples of sales canvassing	154
A crash course in sales and marketing alignment best practices	154
Marketing and Sales working together	155
Lead generation	155
Automation	155
Viral marketing	155
More sales best practices to apply to your business	156
Action plan	156
Customer targeting	156
Sales canvassing	156
Sales scripts	156
Email templates	157
Personalized message	157
Value proposition	157
10x goal setting	157
Understand the client business model	157
Follow-up	157
Fill your pipeline, always!	158
Keep in touch	158
Deliver value before closing	158
Outstanding support	158
At the end of it, it's about listening	158
Growth Marketing	159
Why growth hacking is critical for your online business	159
What is Growth Hacking? (and what is not!)	160
The Growth Hacking Mindset	161
From Personal to Incremental: Two Approaches to Learning	161
The Power of Yet: The Growth Mindset	162
It Got to Be Data-Driven: The Feynman Approach	162

The growth hacking methodology	162
T-shaped: To be a growth marketer multidisciplinary is the rule of thumb	163
Growth Hacking is about the whole funnel	163
Top growth channels used by marketers	164
The importance of direct traffic to assess your branding strategy	164
Guest blogging	165
Interviews	165
Social media	165
Community building	165
Get off-line	166
Spark curiosity	166
Why organic traffic means a sustainable business	166
An integrated SEO strategy that brings together social media and content marketing	166
Gain referral traffic to diversify your acquisition channels	167
The 10 building blocks of the growth hacking canvas	167
Key takeaway	168
Product-Market Fit In A Nutshell	168
The Lean Startup Methodology in a nutshell	169
The Minimum Viable Product in a nutshell	170
Problem/Solution Fit comes first	171
Product-market fit myths	171
Myth #1: A product-market fit is a one-time event	171
Myth #2: Product-market fit is a linear process	171
Myth #3: Product-market fit is a one-time achievement	171
Myth #4: Product-market fit = no competition	171
Connecting the dots	172
